INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories present to subscribers and the general public, this, the 1959 edition of the Lincolnton City Directory, which also includes Boger City and the rural routes emanating from the Lincolnton Post Office.

This is the first Hill Directory of Lincolnton and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Lincolnton industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Lincolnton to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Lincolnton Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progrssive community like Lincolnton, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is a common intermediary between buyer and seller, and plays an important role in the daily

J. FRED SHUFORD CONSTRUCTION CO.

activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Lincolnton and Boger City, and the name, official personnel, nature and addres of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the named streets are arranged in order, the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

V. THE LINCOLNTON RURAL ROUTES DIRECTORY, is the fifth major department, printed on white paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Lincolnton and vicinity.

There are more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The Publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Location

Ideally located near the South Fork of the Catawba River and on the junction of North Carolina Highways 27 and 150, and United States 321, Lincolnton, the county seat and geographical center of Lincoln County, is advantageously situated close to the heart of North Carolina's highly industrialized Piedmont area. Lincolnton, with a population of 6,500, is the only incorporated city in Lincoln County. It is in but not hemmed in

by industrial expansion. While it enjoys plenty of room for growth, its quick and unimpeded access to the network of Federal and State public highways places it in an enviable location from both business and pleasure standpoints. According to a well-known Industrial Locator, Lincolnton enjoys "readily accessible isolation." North Carolina's new 4-lane highway system now brings Lincolnton within minutes of nationally known express ways linking it directly to the North, South, East and West. Lincolnton is within 30 minutes drive of the newly approved 4-lane highway which will make straight-line connection between Charlotte and Canton, Ohio.

Lincoln County, 30 miles long and 10 miles wide covers an area of 308 square miles of rich rolling terrain. Of its 197,120 acres, 91.4% are in farmlands with 81.0% of its total acreage devoted to agriculture.

With Lincoln County's ever increasing mechanization of farms, more and more farm operators and their family members become available for employment in diversified industry each year. It is the goal of Lincoln County to develop its industrial potential and to provide

A Typical Home

jobs and subsequent economic betterment for its people who are now commuting to adjacent counties.

Climate

Enhanced by an average altitude of approximately 900 feet and its close proximity to the mountains immediately westward which regulate extremes in heat and cold, Lincoln County enjoys an annual average temperature of 58.6°F., a negligible snowfall annually measuring approximately 8 inches, an annual average rainfall of 48 inches, and an annual average relative humidity of 66.5%. With a frost-free growing season of 194 days, only 4 to 5 months heating is required. Frost penetration is but three inches.

History of Lincolnton

Lincolnton was already a cultural and commercial center at the time of the Revolution. Many of its fine, original homes still stand. Named for Benjamin Lincoln, who achieved fame at the time of Cornwallis's surrender to Washington at Yorktown, Lincolnton was settled in large measure by German and Dutch Protestants seeking religious asylum. Toady, the county remains primarily Protestant; while its politics like that of other Southern Communities is largely Democratic.

Lincolnton is the county seat of Lincoln County which originally embraced the present counties of Catawba, Gaston, half of Cleveland, and after 1779, a part of Burke; Lincoln was established along with Rutherford, out of Tryon in 1779, when that county was abolished, reportedly because the name of Governor Tryon had become odious to Revolutionary Patriots. Cleveland, Gaston, and Catawba were carved from this area but voted with Lincoln until 1854, when Lincoln was allowed her own representatives.

The Battle of Ramsour' Mill in June 1780 was fought within the present city limits of Lincolnton. Had this battle not been fought, it is probable that America would be today an English Colony. This seemingly insignificant battle to which little note or credit has ever been given, changed the history of the world. It directly set the stage for the victory over the English at Kings Mountain and the subsequent surrender of Cornwallis at Yorktown, Virginia.

Lincolnton Post Office

Government

Lincolnton is administered by a board of aldermen, a mayor, and a vice mayor, who are elected by the people. Lincoln County affairs are administered by a commission of five members, who are elected by popular vote of the citizens. Both boards comprise successful business men who make it their business to protect the rights of small business as well as large industry.

Industrial Potential

As is the case with many counties whose county seat is it's only or chief incorporated city, most of Lincolnton's industries lie immediately outside or relatively close to the present city limits. A survey made in 1958 by the Lincolnton office of N. C. Employment Security Commission credits Lincoln County with 42 industrial establishments employing approximately 3,000 workers. While the 10 textile firms dominate its economy with almost 2,000 workers, it's 7 furniture plants running it a close second with over 500 employees, numerous other types of industries from hosiery to mining enjoy a most profitable existence.

Labor

One of Lincoln County's greatest assets is her abundance of available labor. Within a fifteen-mile radius of Lincolnton it is estimated that there are approximately 4,500 workers, easily trainable and in the productive age brackets, available for industrial employment. These people are native-born, highly intelligent, industrious, loyal, and efficient with strong religious ties, the larger percentage owners of modest homes or farms. Industry finds these people to be extremely conscious, stable, and thoroughly reliable citizens, readily adaptable to new industrial processes and capable of being quickly trained to perform complicated operations at high rates of production. Lincoln County enjoys the highest degree of tranquil employee-employer relationships. Lincoln County knows no labor unrest. Located in Lincolnton, the office of the Employment Security Commission of North Carolina offers every assistance to both present and prospective employers with regard to labor requirements

CAUTION . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Know Your Directory SYMBOLS

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. ***Insist on being well represented in its pages.***

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Association of North American Directory Publishers

60 EAST 56th ST. NEW YORK 22, N. Y.

A STATEMENT
OF
ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on Being Well Represented In Its Pages

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight.

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500.

CONSULTATIONS OR CIRCULATION CONSULTED

Out of Sight - Out of Mind
★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1959

Including Boger City

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Figures following names denote number of persons living at that number.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section also includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight.

WHY A YELLOW PAGE SECTION?

*It is customary to include a Yellow Page Section in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

*

The Yellow Page Section is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

CITY DIRECTORY ADVERTISING
IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

★

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

WHY A YELLOW PAGE SECTION?

*It is customary to include a Yellow Page Section in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

*

The Yellow Page Section is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
